This time I will file and Injunction in Federal Court. I did send an email explaining that girl is in 30 days notice for legal action (see enclosed), hence, she is in conflict of interest and obviously retaliating. You need to vacate this new charge, so we can avoid legal action. Also I did send an email to you regarding Ms. Jones retaliatory behavior recommend you to take action on it. This is persecution. There will be another OCR complaint about this issue after 24 hrs of this email. This will be added to current retaliatory open complaint the US dept. of Education.

Students discrimination issues.

Carrie.

They are a number students coming to me requesting advise regarding discrimination issues; mainly, they are Spanish. For some reason they are in knowledge of my integrity in civil right issues. It is very disturbing what they have to say, and they are willing to go further to have there civil rights respected. One of them --J. Miranda--have a preliminary conference with the student affairs department, and she want me to be with her at the hearing. The student affair (Melisa) has denied that, for obvious reasons, I like to help her since she has very compelling case. Please be advised that if her documentation shows discrimination, I will recommend her to file a complying with the US Dept of Education, I will meet with her today. If you have any suggestion before hand, please don't hesitate to contact me. Also it is well established how Melisa Jones loves to violate the students civil right knowing that--I quote-- "she is protected and that the school has legal representation that will protect her"; this remark may create and intentional violation. This so called "protection" is implied by the Us Supreme Court in several landmark case, and only apply to High Schools and bellow schools; not to Universities and under US Constitution; since Universities should be an example, and this school is an example of the opposite.

Mr.
William Howard
SUNY

Sir.

Please find attached a letters from; Wendy L. Kowalczyk (Associate Counsel), that was sent to me, together with other useful documents. This is the second letter this lady send me accusing me or quoting me with action or comments I had never made. As it is, some of Purchase college official may face criminal charge for retaliation(which will never happen), while the college has being investigated for 17 violation of civil rights. It is unfortunate that the lack wisdom and ethical procedures have lead the college to its worst moment. Violation of civil right s is one issue; creating untruthful statements in other to intimidate a disable students is another matter. Please be advised that, I, as law student and more than 10 years of experience in the legal system, I will not allow any more gossip and low character behavior from any SUNY official.

Litigation is imminent, and anyone involved in these unprofessional action will be asked to answer to the law. The pain and suffering the college have inflicted upon my self and others, with their discrimination and retaliatory action is worth to be prosecuted. I hereby, ask you, respectfully, that you take these matters into your own hands, since some diversity in needed. These issues are the result of poor judgement, and the poor application of the US Constitution at a University level...students do not shed their constitutional rights schoolhouse gate"Tinker v. Des Moines Independent Community School District, 393 U.S. 503 (1969). As Tinker said, Universities in special, must be an example of legal obedience. School officials that knowingly and intentional violate the law are the worst epidemic this country can endure, since it affect our children very future. Our very pricipals in which our founding fathers engraved us with the US Constitution, are now again and again being denied to its citizens (students). I have seen this over and over here at purchase. You will find in time that the arrogance ego, and goddest arttitute is the real problem, not the issues them-selves.

One of the latest legal precedent on Students wrights Christian M. DeJohn v. Temple University, that also embrace many other issues, specially on the Amic brief for the student, endorsed by some of the most prestigious association , civil rights groups and attorneys--law firms, of Universities violating over and over the students rights. Purchase college is "good" college because they discriminate specially with housing; employees and their families get ADA accommodation cannot get---just one example. See attached.

Please let us stop making things up--I never asked for free housing--and stick to the issues. At this point having some with the animosity of; Wendy L. Kowalczyk, on the case, will only make it worst.

Throughout the time I have been here in school, a year and one half, as you realize I have encountered and overcome many barriers, and still counting. I like to tell you that unfortunately, I have set up an appointment with Michele Baptiste, which I just find-out she existed last week, to file another 2 civil right complaints; this time I would like to give the school to correct it self without leaving-out other options. Since as also may know, my intentions are and will be not damage the school it self as educating body; unfortunately to correct these issues sometime it cannot be accomplished without making difficult decisions that may alter (not terminate) the lives of some employees that that other wise interfere with any necessary remedies and recovery to the reputation to other clients and employees that are always doing the best for their client (students) and co-workers. So it my standard of duty as legal study student (completed) to recommend the dismissal for several employees of the library for their role on systematic (by policy) concurrent poor judgement that leads to discriminatory actions and unprofessional behavior. Theses complaints have been directed to the head of the library for the passed year without any positive consequences, but actual with negatives out-comes .I cannot emphasize more that the library is the school portal to the public and clients-students, and the first impression of the school enters though the library. Regardless of whether the Mediation of current disputes with the school, SUNY and the state take place or not, my recommendations to the school for improvement are many, but nothing more important that the library. A new, energetic, applied, involved library management and re-valuation former students-employees is imperative to improving the image of the school of the school. I also must recommend, commend the dedication and commitment of other library employees. I look forward to see some changes that will bring the library to the high level of professionalism that the school so desperate needs.

Thank you.
